Dear Kevin:

Thank you for taking the time to address our membership at the California Farm Bureau Federation Leadership Conference last week in Sacramento.

Our members benefited from hearing your perspective and of your experience in succession planning. Your workshop was consistently rated as a "5" on our conference evaluation (on a scale of 1-5). We also mailed additional copies of your book to eleven of our members who requested a copy for more information.

We are pleased to support you and your business in the important endeavor of helping transition California's family farms to future generations. On behalf of our 91,500 members, I thank you for your time and dedication to agriculture.

Sincerely,
